Your Provider Wants to Answer 3

Are you nervous to ask your provider questions? Don't be. You may be surprised to learn that your medical team wants you to let them know that you need help.

Like all of us, health care providers have busy schedules. Yet they want you to know:

- All you can about your condition.
- Why this is important for your health.
- Steps to take to keep your condition under control.

Bring your medicines with you the next time you visit a health care provider. Or, write the names of the medicines you take on the lines below.

Like many people, you may see more than one health care provider. It is important that they all know about all of the medicines you are taking so that you can stay healthy.

Ask Me 3® is an educational program provided by the National Patient Safety Foundation® to encourage open communication between patients and health care providers.
